HANIEL HENRY

Artificial Intelligence and Data Science Graduate

+91 9037069049 , hanielhenry@gmail.com LinkedIn Instagram GitHub Thrissur, Kerala

SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science from Jyothi Engineering College, with hands-on experience building ML models, NLP pipelines, and AI-powered systems. Developed a scam-detection model and sentiment analyser using Hugging Face, and co-designed Smart MicroLab — an AI-powered biolab that won the best project award (₹10,000) at Yukthi 2026. Skilled in Python, R, MySQL, and data analysis. Actively seeking opportunities to apply my AI and data science expertise to build intelligent, real-world solutions.

EXPERIENCE

Public Relations Officer

AIDA (Artificial Intelligence and Data Science Association)

- Organized a Hands-on workshop on AI and Metaverse with the help of Unique World Robotics for 55+ students at Jyothi Engineering College on the 28th of October 2023.
- Coordinated logistics for 3+ events at Tharang Technocultural Fest, managing speaker coordination and participant registration.

AI Trainer

Team ED AI

- Conducted a training session on "Artificial Intelligence in Robotics" for 30+ students at GVHSS Thrissur, organized by the Skill Development Center under the General Education Department of Kerala.

Internships

ICT Academy

- Built an NLP scam-detection model achieving 85% accuracy and a sentiment classifier using Hugging Face Transformers, as part of a 30-day intensive program at Jyothi Engineering College.

Techmanteraz

- Completed a 7-day intensive in PCB design at Techmanteraz, designing and testing circuits from scratch and passing an internal examination on PCB fundamentals.

ADDITIONAL CERTIFICATIONS

- Introduction to Modern AI by CISCO Networking Academy (February 2025).
- Introduction to Artificial Intelligence by IBM (July 2025 , ID-N3AZ9Y2SS3QB).
- Python Essentials by CISCO Networking Academy (February 2025).
- Generative AI: Prompt Engineering by IBM (July 2025 , ID-UELFH28I7QFT).

EDUCATION

B.Tech in Artificial Intelligence and Data Science
Jyothi Engineering College 2022-2026

High School
Indian School al Seeb (CBSE) 2008-2022

SKILLS

AI & Machine Learning:

- Python Programming (Advanced)
- Machine Learning
- Natural Language Processing
- Generative AI
- Prompt Engineering

Programming & Data:

- R Programming
- C Programming
- MySQL — Database Management
- HTML/CSS/JavaScript
- Data Visualization using Tableau
- Pandas/NumPy
- Git/Github

Hardware & IoT:

- Arduino & Embedded Systems
- IoT & LoRa Networking

HOBBIES

- Cricket Player (Inter Zone)
- Percussionist
- Travelling
- Gaming

LANGUAGES KNOWN

- English
- Hindi
- Malayalam

ACHIEVEMENTS

- Katpenter Best project award in Yukthi 2026 for our project Smart MicroLab.
- ISWK STEM League 3rd prize for GenCell.
- Runner up in intra-college basketball tournament.

PROJECTS

- PrepHub - Created a website integrating syllabus notes, a Dialogflow chatbot, and a voice-automated notes maker to help students prepare for exams.
- EV Saksham - Created a working vehicle which ran on a single cylinder engine by designing the chassis on solidworks and creating it from scratch.
- Water Beacons - Designed an application using flutter and a model which comprised of LoRa modules and Mesh framework to support communication via tower hopping in case of a blackout.
- Smart MicroLab - Designed an AI powered Biolab along with a mobile app we created to find out the CRP, HBa1C and TSH levels in people using a custom made photonic sensor and got an accuracy of 91%. Also secured a cash prize of ₹10,000 for best project at Yukthi 2026.
- GenCell - Created a hardware model which can regenerate energy and be used to charge the primary battery. The model was designed on solidworks and built including the use of automobile dynamos and starter motors. (2020).
